Welcome to Pearson Edexcel

- Trusted by millions of learners, Pearson is the world's leading learning company and as the **UK's largest awarding organisation**, we are best placed to provide qualifications aligned to the British educational system.
- We may not have a university name, but our international **heritage stretches back over 150 years**.
- Today, we partner with schools, universities and employers worldwide, offering world-class, globally-recognised qualifications to over **3.5 million students a year**.

Trusted and recognised qualifications partner to **6,500** schools, colleges and employers globally

We mark over **10 million** exam scripts on behalf of the UK Department for Education each year

We operate in more than **70 countries** worldwide

Why choose Pearson Edexcel now?

We lead the way in digital teaching, learning and assessment

- Online schooling expertise spanning 20+ years.
- Onscreen assessment capabilities.
- 25,000 educators accessed our digital learning resources in 2020.

Our globally recognised modular qualifications protect learners in times of uncertainty

- Bank ongoing evidence of performance.
- Multiple exam opportunities throughout the year.
- Proven university progression.
- Comparability with GCE AS/A Level.

We are more than an awarding organisation

- Career-based BTEC qualifications.
- English language learning resources and testing.
- Learner research and professional developments.

iProgress with Pearson Edexcel

Delivering a consistent learning journey for students aged 3 to 18, everywhere in the world. The iProgress family includes:

More than just a curriculum or qualification

- iProgress offers a range of curriculum support resources, tools and services including training, professional development, print and online teaching materials.

Introduction to Early Years

- This new Early Years curricula covers the two years immediately preceding Year 1 of iPrimary – typically for K and pre-K reception and nursery children aged **3 to 5**.
- This programme was created and launched following research on **best practice for the age group** and market needs, as well as teacher expertise.
- It contains **clear and exemplified objectives** to help teachers understand the level that children should be working at and how learning progresses over time.

How did we create our materials?

- In developing the Early Years curriculum, we worked closely with school-based stakeholders, as well as pedagogical and subject experts to develop all the materials.
- At each stage of development, for each item, we used the research and went back to those stakeholders to ensure that the materials produced are appropriate, rigorous and engaging for both teachers and learners.
- Making certain that review and revision happens throughout the development process, rather than just at the start, ensures that we are creating truly supportive materials that are usable within our markets and help to support identified best practice.

Why Choose Pearson Edexcel Early Years

Cognitive and social development

Introduce the learning with interactive, exciting starter lesson plans that will engage your child

Child-friendly and engaging workbooks

Support in-class learning with workbooks that have been written to be accessible to international students – and can be used with or without teacher support as needed.

Monitor learners' progress throughout the course

Tests are designed to help teachers understand and stimulate discussion with the child without burdening them at such a young age.

Prepare students for progression

Specifically designed to prepare students to be high achievers as they progress to primary school

Personalised certificate of completions

Create sense of achievement for further learning through the awarding of certificates for young learners.

Early Years Curriculum Subjects

Maths

inspires mathematical curiosity and resilience, while introducing key mathematical concepts.
