Transcript – StatCrunch: Collect. Crunch. Communicate.

statcrunch is a powerful web-based
statistical software that has everything
you need to bring statistics to life
with real data collect data using
surveys upload your own data or browse a
library of shared datasets from a
community of statcrunch users analyze
your data using over 90 statistical
procedures from summary statistics to
interactive graphs finally give those
visuals meaning by communicating your
results with robust reporting tools
available in my lab statistics or on its
own statcrunch brings course concepts to
life collect crunch and communicate with
real data all in one place with
statcrunch
